Terskey Mountains with a
local English-speaking guide**

More than 350 species of rare wild birds migrate to Kyrgyzstan every year. On the south shore of Issyk-Kul, you can see different types of birds listed in the renowned guide "Big Bird's Red Book". This tour will give you the opportunity to spot birds and rare wildlife – the Golden Eagle, Himalayan Snowcock, Red-fronted Rosefinch, Whooper Swan, Kyrgyz Camel, Fox and even the Wolf. The tour will also provide an opportunity to meet with eagle and falcon hunters, as well as wildlife experts of the Issyk-Kul Nature Reserve.
